Dear Mark Shelford/Tim Bowles/ My M.P.../My Councillor.....

I am writing to ask you to support bus franchising for Bath. Bath deserves a better public transport system by investing in free bus transport for children in B&NES, improved bus routes to schools & better bus timetabling, and safe cycle routes to schools.

The cost of public transport in Bath and overcrowded, unreliable buses means many parents are making the decision to drive their children to school.

I want children to be encouraged to walk & cycle & use public transport to school to stop us all having to use the car. The pollution levels in Bath are worrying me and traffic congestion is getting worse every day.

There are also lots of children who could cycle to school if Bath had safe cycle routes. I want children to be able to cycle to school without having to share the road with cars. There are wide pavements along the main roads in Bath that could be made into safe cycle routes to schools.

I hope you will work to support improving travel to school in Bath and I look forward to hearing from you about this important issue for Bath residents,

Yours sincerely
